ROCK & CRYSTAL SECRETS

My crystal observation sheet

Type in the fields and save a copy, or print the sheet to write by hand.

Specimen / collection number

Date

01 What came with the specimen?

Exact label or seller name for the stone

Bought / found / received from (and any stated origin or treatment)

Keep these claims separate from your own observations.

02 What can I see in ordinary light?

Colour, bands, spots or cloudy areas

Surface shine and shape (natural-looking faces, polished areas, rounded edges)

Can I see through it, only see light through it, or neither? What changes as I turn it?

03 Sketch or photo record

Sketch or describe the specimen here

Photo filename / number

Lighting / background

Record the detail you want to remember.

04 What do I still want to find out?

Possible match and guide consulted (a possibility, not a confirmed identity)

Unanswered question / what I would ask a seller or specialist

Observe without damaging: no scratching, acids, tasting or making dust.

Labels and photographs provide clues; this sheet does not confirm a mineral identity.
